Mr. Robert Pattison  
General Manager  
Rio Algom Mining Corporation  
La Sal Route  
Moab, Utah 84532

Dear Mr. Pattison:

Re: Reclamation Activity, Lisbon Mine, M/037/001, San Juan County, Utah

Thank you for the brief tour of your mine site last week. The Division appreciates the notification concerning the current reclamation activities and the update.

In regard to the new 30 acre borrow area disturbance, the Division does not view this as activity that should come under our jurisdiction. This activity is associated with the tailings ponds reclamation, which falls under the authority of the Nuclear Regulatory Commission. Also, Rio Algom has permitted and is working with the Bureau of Land Management in regard to the use and reclamation of the borrow area.

Please keep us posted regarding any further reclamation activity at the mine.

Sincerely,

Holland Shepherd  
Reclamation Specialist/Permit Lead
